

Are you living with

Lupus?

A research study for women with Lupus is enrolling now.

Participants may receive study-related exams, medications, and lab tests at no cost.

Modest compensation for study-related travel may be provided.

Local doctors are testing an investigational medication for women with Moderate-to-Severe Lupus.

You may qualify for a research study if you are . . .

- **Female**
- **18 to 75 years of age**
- **Diagnosed with**

**Cutaneous Lupus
Erythematosus**
